-
1. Regulantion of prodution , inspection of quality and sanitary of ficher produts (Decreto executivo nº13/99);
- Regulantion of inspection of ship and estabichiment of fich transformation produts (Decreto executivo conjunto nº14/99);
 - Regulation on Prodution, import, selle, and use of Pesticides produts. 1965

SPM IMPEMETANTION

- Ministry of Agriculture and Rural Devenlopiment is a authority responsible for a implementation of Sanitary Phitosanitary Measures through the National Directorate of Agriculture livestock and foresty, (**Plant Protection Division NPPO**), Vetarianary service.
- RESPONSBLE FOR PERMIT IMPORT ISSUE
- RESPONSBLE FOR PHITOSANITARY CERTIFICAT ISSUE
- PHYTOSANITARY INSPECTION

The tecnhical group started work since January 2001.

However, since Angola had a technical group constituion for implementation of ISPM we have neve had a notification case on importation and exportation of produts.

Controlo da Qualidade

CONSTRAINTS

- Lack of staff experiences in the identification of pests
- Lack of literature in this matter
- Communication Problems between provinces
- Lack of Inspection Station at the important seaports and airports
- Training of inspectors is needed
- Lack of financial support
- Lack of Lab equipments

THANK
